

```

synchronized (lockObject)
{
    while (some_condition)
    {
        lockObject.wait();
    }
    doStuff();
} // release the lock

```

```

synchronized (lockObject)
{
    doSomething(); // that affects some_condition
    lockObject.notify();
    doSomemore();
} // release the lock

```
